NOTE:

- Swarm removals are typically done free of charge, except when conditions are deemed dangerous by the beekeeper (ex: high in a tree, or in a crowded location).
- Hive inspections may or may not be done free of charge.
- Expect a cost for hive extractions, as they require a highly skilled and experienced beekeeper who is also skilled in construction techniques and has the tools to do the job.

Please discuss cost estimates with your beekeeper **before** beginning any inspection or work.
