NOTE:

Please discuss cost estimates with your beekeeper **before** work begins.

- **Swarm removals** are typically done free of charge, except when conditions are deemed dangerous by the beekeeper (ex: high in a tree, or in a crowded location).
- **Inspections** may or may not be done free of charge.
- Expect a charge for **hive extractions**, as these require an experienced beekeeper who is also skilled in construction techniques and has the tools to do the job.
